ALCOHOL SOLUTION IP5

SANITIZING AID

MATERIAL & FUNCTION

ALCOHOL SOLUTION IP5 is a high quality, non-potable ethanol, suitable for industrial cleansing where a waterless environment and low odour is desired. ALCOHOL SOLUTION IP5 does not require An Australian Taxation Office permit for purchase. ALCOHOL SOLUTION IP5 is denatured with isopropanol, rendering it ideal for printing, foundry, chemical formulators etc.

APPLICATIONS

ALCOHOL SOLUTION IP5 is readily available and inexpensive. It is often a suitable alternative to isopropanol where solubility is not critical or can be assisted by other formula components. ALCOHOL SOLUTION IP5 is derived from consumable ethanol and isopropanol, the risks associated with human contact are minimized.

A clear colourless liquid miscible in water and hydrocarbon solvents

A product for use in industrial cleaning formulations, coatings reducer formulations and denatured with a similar alcohol (no hydrocarbons)

ALCOHOL SOLUTION IP5 contains no water so it will not promote rust.

DIRECTION FOR USE

Use neat. Spray onto surface to leave a thin film and allow to air dry.

CAUTION

Avoid contact with skin and eyes and avoid breathing vapour or spray mist.

PACKAGING

20 Litre & 200 Litre containers
