HEAVI CLEAN

MATERIAL & FUNCTION

HEAVI CLEAN is a heavy duty low foaming alkaline detergent compound blended with complex phosphates, high alkaline boosters, sequestrants and surfactants to produce a rapid cleaning action and good hard water tolerance.

HEAVI CLEAN is 56% Sodium Hydroxide coupled with high alkaline boosters, complex phosphates and surfactants.

HEAVI CLEAN is approved by the Department of Primary Industry.

HEAVI CLEAN is also available in a NO FOAM version.

APPLICATION

For the removal of burnt on deposits of soils, fats, greases, carbon etc., from stainless steel equipment: **HEAVI CLEAN** is recommended to be diluted from 5 to 20 grams per litre of water and circulated at 70 - 80°C for 20 minutes. Then flush solution from the system with ample water.

For smoke houses and fryers: Dilutions of 40 - 60 grams per litre of water. Dilute in cold water then raise temperature to desired range, at least 80°C.

CAUTION

***HEAVI CLEAN** is highly caustic and should be handled with care. Contact with the skin and eyes must be avoided. Refer to Material Safety Data Sheet for further safety information.*

PACKAGING

2.5, 5, 15 & 200 kg containers.

HEAVI CLEAN will store in good condition indefinitely as received in original containers. Once opened ensure lid is securely in place to keep out moisture.
