MEM CLEAN 120 pH adjustment for ENZYME CLEANING OF MEMBRANES

MEM CLEAN 120

Contains 5-10% SODIUM HYDROXIDE
<10% Tetrasodim Ethylenediaminetetraacetate

DANGER

Causes severe skin burns and eye damage.

Wash skin thoroughly after handling. Wear protective gloves/ protective clothing/ eye protection/face protection.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/shower.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

Wash contaminated clothing before reuse. Store locked up. Dispose of contents/ container in accordance with local/regional/ national/ international Regulations

EMERGENCY INFORMATION: Additional information is listed in the Material Safety Data Sheet

MATERIAL & FUNCTION

MEM CLEAN 120 is sodium hydroxide based solution for the CIP cleaning of membranes. It enables the pH to be optimized for cleaning sensitive membranes, and it provides a suitable pH for the subsequent application of alkaline protease solutions (such as **MEM CLEAN EC1**). **MEM CLEAN 120** is also an effective detergent in its own right and is suitable for cleaning of membranes without the presence of the enzyme.

APPLICATIONS

MEM CLEAN 120 is suitable for adjusting the pH of CIP solutions used in cleaning most membranes utilized in the food industry.

DAIRY INDUSTRY

MEM CLEAN 120 can be used at concentrations of 0.5 % to 1.0 %. to maintain a mildly alkaline environment of pH 11 or less. The actual level depends on the initial pH of the CIP solution and the pH capacity of the organic load in the system. However the technical representative should consulted advice on particular conditions suited to the membrane in use.

SAFETY NOTE

MEM CLEAN 120 is an alkaline liquid and corrosive to the skin and eyes in concentrated form. Wear goggles and rubber gloves. Operators should refer to the MSDS for safety precautions.

PACKAGING

15, 200 & 1,000 Litre containers.

IMPORTANT NOTICE TO CUSTOMER

*Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user. **ALWAYS TEST FIRST.***
