S21 MULTI PURPOSE CLEANER

MATERIAL & FUNCTION

S21 MULTI PURPOSE CLEANER is a remarkable hard surface cleaning concentrate which has outstanding grease cutting action through the incorporation of a broad range of sequestrants, surfactants and alkaline cleaning components. These components are further boosted with a specialty solvent component to synergistically dissolve and emulsify almost any grease or grime which can be encountered. The alkalinity of **S21 MULTI PURPOSE CLEANER** has been achieved without using caustic based products and as such will not affect aluminium surfaces.

S21 MULTI PURPOSE CLEANER finds application in diverse areas including degreasing of automobile engines, industrial equipment, marine engines and bilges of boats, cooking ovens, aluminium filters in cooking fans, oily tools, kitchen work benches and stoves, grease removal from clothes and even grease removal and tyre marks from driveways and concrete surfaces.

APPEARANCE

Light yellow water thin liquid with solvent odour.

APPLICATION

Engines, boat bilges, driveways etc. - use neat or dilute 1:1 in hot water depending on degree of grease build-up.

T +61 8 9302 4000 **| FREE** 1800 999 196 **| F** +61 8 9302 5000

Work benches, stoves etc. - dilute 1 PART **S21 MULTI PURPOSE CLEANER** to 2 parts of water depending on the type of soil to be removed (more grease, lower dilution - less water).

Greasy clothes - Add 150 – 300 mls per 7 kg of wash, or a normal household wash load.

Aluminium filters for cooking fume hoods - Dilute 100ml per litre of hot water and leave filter to soak for several hours. Agitation will improve grease removal.

Tyre Marks – Apply neat, allow to dwell on the stain for about 60 seconds, scrub with a stiff brush and rinse off with copious amounts of water. If the mark remains, repeat the process.

PACKAGING

2, 5, 15, 110 and 200 Litre containers.

IMPORTANT NOTICE TO CUSTOMER

Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user **ALWAYS TEST FIRST.**
